This workshop is designed as a continuation of previous bookmaking and alternative process workshops at my studio. New and former students are welcome. This workshop is for all levels. We will concentrate on the various methods of integrating photographs into the surface of various art papers, cloth, wood support, canvas, glass, plexi-glass and metals. Non-silver processes will be emphasized including blue print, Van Dyke brown print, photocopy transfer, Polaroid emulsion lifts, as well as hand painting and acrylic transfers.

Text methods will be demonstrated - rubbings, rubber stamp, embossing, collage. old-fashioned typewriter as well as computer generated text. Examples will be shown. Surface treatments will be introduced such as coating with wax and hand painting with encaustic (pigment in hot wax). The workshop will emphasize the photographic image, but is not limited to this and will include other modes of expression - drawing, poetry, collage and illustrations.
